SEWER EXTENSIONS

APPROVED BY THE CITY COUNCIL

Salary of Finance Commissioner
Raised—Auditor Comes Back at
Secretary-Treasurer.

The city council met in regular session last evening, Mayor MacKenzie presiding and Ald. Fraser, Clark, McLeod, Griesbach, Picard and Bellamy present.

The minutes of the previous regular and special meetings were read and adopted.

COMMUNICATIONS

C. H. Robert wrote asking that the council have the earth removed from the line adjoining his livery stable. The Commissioners were given power to act.

THE POUND QUESTION.

W. H. Gardner drew the attention of the council to the damage done by cows running at large in the city. Ald. Griesbach said the matter was in the hands of the committee on by-laws. The matter was left in the hands of the commissioners to make temporary arrangements until the new by-law is presented. The Mayor pointed out that the fact that the chairman of the committee had not called a meeting did not relieve the other members from the necessity of acting in the matter of preparing the by-law. The committee were asked to report on the legislation at the next meeting.

WORK FOR THE COMMISSIONERS.

Alex McDonald wrote complaining of a wrongful accusation made by Constable Bradley that he was keeping a house of ill repute. The commissioners were asked to investigate.

The secretary of the board of trade drew attention to the Portland and New Westminster fairs and suggested that an exhibit be sent by the city. Referred to the commissioners for report.

Mr. Donald Ross notified the council of his intention of fencing off the property on the flats across which the trail runs from Second street to the Edmonton hotel. The letter was referred to the commissioners for report. In this connection Ald. McLeod pointed out that a house was being erected on land which would be required for a street in the east end of the city and action should be taken to open up these streets at once.

W. H. Clark & Co. asked for a water main along Ninth street past where new factory and offered to guarantee interest on the cost of the same. Referred to the commissioners for report.

POSTAL MATTERS.

W. W. McLeod, P. O. Inspector wrote re the hours of clearance of the post office street boxes, that the matter was being referred to the postmaster at Edmonton.

The Mayor had seen Mr. Taylor in the matter and they had agreed to have the boxes cleared after midnight. He suggested that it would be better to appoint a man to make the collection rather than to take the police from the discharge of their duties to do the work. He thought the service could be done for \$200 per year. Ald. McLeod held that the Government should pay the cost of the carrier. Ald. Picard thought the amount named was too high. Ald. Clark said this was one of the penalties of being a city.

The commissioners were given power to engage a carrier at a salary not to exceed \$200 per year.

MR. CHIPMAN AGAIN.

Mr. Chipman recommended the payment of the Canada Foundry Co.'s account for \$297.40. A lengthy discussion arose as to the claim of the city against the company for freight on pipes over the R. Y. & P. The B. Y. & P. was not in operation when the contract was signed and the argument hinged on the question whether the undertaking of the company to deliver pipe in Edmonton was fulfilled by its delivery in Strath-

cona. The matter was referred to the city solicitor for report. The account for \$297.40 was ordered paid, being freight on pumps bought from the Northey Co.

Ald. McLeod thought the city should have a claim against the company on account of the continuous repairs necessary to the pumps, one of the pumps was practically worn out.

The company were willing to allow a reduction of \$82.55 on account of defective pipe. The city had made a claim of some \$312. This was also referred to the solicitor.

R. WILSON SMITH ONCE MORE.

R. Wilson Smith gave notice that he had taken over the city bonds and paid over the amount agreed upon. He was sending along a bylaw to be passed and an agreement for signature.

MR. TOMLINSON REPLIES.

A. R. Tomlinson wrote, replying to the statement made by the secretary treasurer to the finance committee.

An altercation arose between the writer and the secretary during the reading of the report, the writer claiming the secretary was inserting words. A considerable discussion ensued as to whether the report should be read in council or be referred directly to a committee. Ald. Griesbach and Clark held that as it was addressed to the council it should be read before this body. The reading was then concluded and Ald. Griesbach moved that the latter be referred to the finance committee. Ald. Clark thought the matter had been closed and did not see why it should be opened again. Ald. Griesbach pointed out that the recommendations of the finance committee had not been adopted. One official was right and the other was wrong; which was right should be ascertained. If the conditions were not as bad as the auditor claimed, it was a cause for gratitude; if they were as bad it was a matter for investigation.

Ald. Picard seconded the motion, as he thought any new points brought up should be dealt with.

The secretary said the letter was merely a personal attack upon himself.

Ald. Clark and McLeod moved in amendment that the report be laid on the table until the statements for the year are brought down.

The secretary reported that the books for the year had been closed but the statements were not yet ready.

The amendment carried.

STAND PIPE ALLOWED TO RUN DRY.

E. C. Pardee wrote that a heating tank in the new Bank of Montreal building had collapsed one day and explored the following day, and attributed the trouble to the fact that the city water tower is allowed to be emptied every night. He held that the tank should be recovered for the loss of the tank. Referred to the commissioners for investigation and to the solicitor for report as to the city's liabilities.

During the discussion it developed that it is customary for the pumps

PARLIAMENT

Ottawa, March 21.

The Contentious Amendments

As a result of the resignation of the Minister of Interior on March 21st, and of the negotiations which have since gone on between Mr. Sifton and the Government, last night the Premier laid upon the table the amendments with which the Government had decided to replace the educational clause, number 16 of the Autonomy Bills.

The amendments and the original clauses are as follow:

New Clause

"Section 93 of the British North America Act, 1867, shall apply to the said province, with the substitution for sub-section 1 of said section 93, of the following sub-section:

"1. Nothing in any such law shall prejudicially affect any right or privilege with respect to separate schools which any class of persons have at the date of the passing of this act, under the terms of chapters 29 and 30 of the ordinances of the Northwest Territories, passed in the year 1901.

"2. In the appropriation by the legislature of distribution by the government of the province of and moneys for the support of schools organized and carried on in accordance with said chapter 29 or any act passed in amendment thereof, or in substitution thereof, there shall be no discrimination against schools of any class described in the said chapter 29.

"3. Where the expression 'by law' is employed in sub-section 3 of the said section 93, it shall be held to mean the law as set out in said chapters 29 and 30; and where the expression 'at the date' is employed in said sub-section 3, it shall be held to mean the date at which this act comes into force."

Original Clauses

Section 16 of the Autonomy Bill, as introduced by Sir Wilfrid Laurier, and for which the foregoing is to be substituted read as follows:

"16. The provisions of section 93 of the British North America Act, 1867, shall apply to the said province as if at the date upon which this act comes into force the Territory comprised therein were already a province, the expression 'the union' in the said section being taken to mean the said date.

"2. Subject to the provisions of the said section 93, and in continuance of the principle heretofore sanctioned under the Northwest Territories Act it is enacted that the legislature of the said province shall pass all necessary laws in respect of education, and that therein shall always be provided (a) that a majority of the ratepayers of any district or portion of the said province, or of any less portion or sub-division thereof, by whatever name it is known, may establish schools therein as they see fit, and make the necessary assessments and collection of rates therefor, and (b) that the minority of the ratepayers therein, whether Protestant or Roman Catholic, may establish separate schools therein, and make the necessary assessments and collection of rates therefor, and (c) that in such case the ratepayers establishing such Protestant or Roman Catholic separate schools shall be liable only to assessment of such rates as they impose upon themselves, with respect thereto.

"3. In the appropriation of public moneys by the legislature in aid of education, and in the distribution of any moneys paid to the government of the said province arising from the school fund established by the Dominion Lands Act, there shall be no discrimination between the public and the separate schools in equitable shares or proportions."

Declaratory, not Mandatory

In both cases the provisions purport to be simply declaratory, setting forth in terms the supposed intent of section 93, the educational section of the British North America Act of 1867. This section provides "that in and for each province the legislature may exclusively make laws in regard to education," subject and according to certain restrictive provisions. The first of these says: "Nothing in any such law shall prejudicially affect any right or privilege with respect to denominational schools which any class of persons have been allowed in the province at the union." In pursuance of this subsection the original clause 16 of the Autonomy Bills re-enacted the section of the Northwest Territories Act of 75 under which the Northwest Assembly ordinances were framed, assuming that to be the law defining the rights of supporters of denominational schools in the Territories, which rights are specifically protected by sub-section 1 of section 93 of the British North America Act already quoted, and are backed up by sub-sections 3 and 4 of the same section, which provide first for an appeal to the Governor-General in Council from legislation of the province which might contravene the principles of sub-section one, and afterwards for remedial legislation by Parliament.

ritories, which rights are specifically protected by sub-section 1 of section 93 of the British North America Act already quoted, and are backed up by sub-sections 3 and 4 of the same section, which provide first for an appeal to the Governor-General in Council from legislation of the province which might contravene the principles of sub-section one, and afterwards for remedial legislation by Parliament.

To avoid Misunderstanding

The objection to adopting the provisions of the Northwest Territories Act of '75 was that this was not actually the law existing in the Territories at the time they became provinces, but the enabling provisions under which the actual law—the ordinance of Northwest Territories—was based. It was felt that to adopt the basis of the law instead of the law itself would leave room for widely varying interpretations and possibly endless difficulty which might be to the disadvantage of either the public or the denominational schools. It was felt to be very much better, as securing a plain and easily understood adjustment of educational affairs, to adopt the law which had stood the test of actual operation for years. Under this law, which is the actual interpretation of sub-section 1 of section 93, of the British North America Act, all parties will know exactly what their rights and limitations are. To accept the section of the Northwest Territories Act as reproduced in the original clause 16, was to accept something the limitations of which were not well defined and therefore were not well understood. The adoption of the existing Northwest ordinances with full provision for future amendments gives to be clearly understood the rights and limitations of all parties, and establishes beyond question the right of the legislature to absolute control of the conduct of all classes of schools in the province.

Grants Subject to Provincial Regulations

Sub-section 2 of the amendment replaces sub-section 3 of the original, which provides against discrimination by the provincial legislature in the distribution of public moneys among schools. The original clause might be read as requiring this distribution of moneys amongst schools irrespective of control by the government of those schools. Sub-section 2 of the amendment makes perfectly clear that for the schools of any class to share in Government grants they must be conducted according to the acts passed by the provincial legislature.

A Fair Distribution always Conceded

A certain reading of sub-section 3 of the original clauses would infringe upon the right of the province to distribute provincial moneys as the legislature might determine, while sub-section 2 of the amendment retains to the legislature the right to distribute the provincial moneys according to the laws of the legislature, subject only to the restriction that the distribution should not be unfair to denominational schools. On this point no one will suggest that if denominational schools are conducted according to the laws of the province they should not receive their fair share of the provincial grants.

No Room left for Quibbling

Sub-section 3 of the amendments replaces the first of the original sub-clauses, and gives the interpretation of Parliament as to the time when the union of the new provinces to the Dominion takes place. While there can be no doubt that the intent of the framers of the British North America or Confederation Act was that the reference to the union of the provinces to the Dominion meant the time when certain territory not hitherto a province of the Dominion became such a province it might also be held under the wording of the act that the term "union" meant the acquisition of the territory by Canada. Only one of the meanings can be correct and it is right and proper that the meaning evidently intended by the framers of confederation should be definitely adopted.

The Legislature Controls

The net result of the amending of clause 16 is that the absolute control by the legislature of the schools, which had been placed in some doubt by the terms of the original clause, is now placed beyond doubt.

A System of Truly National Schools

While separate schools exist in the Northwest, and must continue to exist under the terms of the British North America Act, until that act is altered by Imperial authority as it may be—they are, whether Protestant or Roman Catholic, as truly national as the schools which are not called separate—or, if they are not, the legislatures of the new provinces will have all the power to make them so that is permitted to any province by the original terms of confederation.

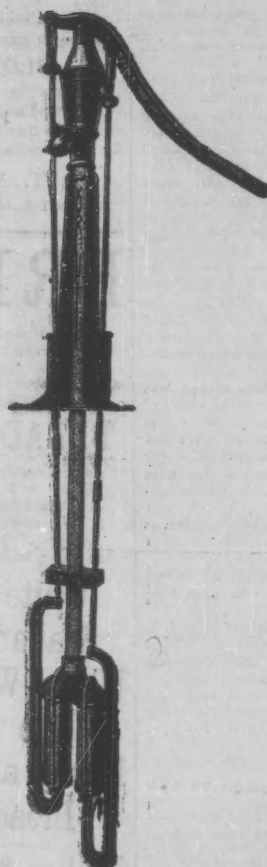

A Principle Conceded—not Its Abuse

It is not the principle of religious toleration expressed in the privilege of separate schools that is objectionable to Protestants. It is the abuse of that privilege by the setting up of a dual school system under other than direct state control. This is the abuse that exists in Ontario, and makes the name of separate school so objectionable to the Protestant majority of that province. It was this abuse in Manitoba that led to the waging out of the separate school privilege in that province. It was the same abuse existing in the Territories from 1884 to 1891 that was then wiped out, without, however, wiping out the principle of toleration expressed in the privilege of separate schools. It is the privilege without the abuse that is being continued in the Northwest. If afterwards there is an abuse of the privilege the fault will be that of the provincial legislatures, and theirs only, under the amended clause 16 of the autonomy bills.

Ross Bros. Ltd

EDMONTON, ALTA.,

ARE THE SOLE AGENTS FOR THE CELEBRATED

Peters
Double Cylinder
Force Pump

The annexed cut (Fig 60) represents our Double Cylinder Force Pump. This is positively the easiest working and most durable pump on the market. Its capacity is far greater than any other pump; and for a stock pump it has no equal. This pump is constructed with two solid brass cylinders and, each one working independently, discharge their full capacity at every upward and downward stroke of the handle; therefore our pump will discharge twice as much water as any other pump, with about the amount of labor. Its ease in operating is based on the fact that it has two rods, one on each side of the pipe, and the one balancing the other, overcomes all the hard labor of pumping water. A four-year-old child can easily operate the pump at a depth of 50 feet.

Its durability is far superior to any other pump for the following reasons:

1. It has solid brass cylinders which do not wear out the leathers.
2. The cylinders being at the bottom of the well never lose their priming neither rust nor wear.
3. It has chilled valve seats which
4. The leather used for plungers and check valves is the very best obtainable.
5. It has no stuffing boxes.
6. The cylinders are stationary, working nothing but the plunger holes.
7. It having double the capacity of any other pump, requires but half the labor.
8. The pipes and rods used are all galvanized.

The Capacity of these Pumps are as follows.

3 1/2 in. Double Cylinder	1300 Gallons per hour
3 in. " " "	1000 " "
2 1/2 in. " " "	700 " "

In price they compare favorably with many of the cheaper and more inferior pumps sold. They are not a new thing or an experiment as we sold a large number last season and in every instance they gave perfect satisfaction.

Building Hardware

Of every description. We carry the largest stock, best assorted and our PRICES ARE LOWER than any other firm west of Winnipeg. We solicit assorting orders from the trade which will be filled promptly and at lowest prices.

Ross Bros. Ltd

NOTES AND COMMENTS.

The Mail and Empire displays its knowledge of Territorial educational conditions by the following break.

"Fortunately for the West, and in spite of Sir Wilfrid Laurier, Manitoba is left as a Pale for settlers who cherish freedom in educational matters."

One of Canada's heroines passed away last week at her home in Walsingham Centre, Ont., when death claimed Mrs. Roher, better known to the world as Abigail Becker. She it was who on a cold stormy, wintry night in November, 1854, risked her life to save Captain Paquette and crew of the three masted schooner Conductor, which was wrecked on Long Point. For her bravery and untiring efforts in saving the crew the Government gave her a farm of one hundred acres and a purse of one thousand dollars was given her by Buffalo shipowners. The New York Life Saving Association decorated her with a handsome gold medal, and with modest pride she displayed the medal up to the very last. She also received letters from our late beloved Queen Victoria, also one from Lord Aberdeen. The incident is the theme of a stirring poem printed in one of the Ontario school readers.

Mrs. Chadwick has wound up in jail for a ten year term. She may find something homelike about the institution in as much as she is used to living in imposing structures built with other people's money. Unless the jailers of Ohio are different creatures from the bankers of Ohio the world will expect Cassie to come to the surface again shortly as the proprietress of the Ohio State prison.

To-go or not To-go, that is the question" With Rojstevsky, and if he must go where to go? If he goes East the Japs will blow him up; if he goes home the Nihilists will blow him up. If he doesn't go somewhere he will be recalled and the Czar will blow him up.

IMMIGRANTS COMING IN:

The trains daily bring large numbers of immigrants to all points along the C. & E., and many come through Edmonton to reside in the city or the immediate district. Within the past ten days not fewer than five hundred new-comers have reached the city and the immigration hall is frequently taxed to accommodate them. The number stopping in the thriving towns along the line and spreading out into the country east and west must be fully as large as that of the through passengers.

The majority of the immigrants so far have been from the United States. This class is very general and includes representatives from all parts of the Union.

Many have also reached the city from the Old Land and several from Australia and New Zealand.

A colony of 34 Bohemian families came in last week from Oklahoma, and settled east of Wetaskiwin.

BECAUSE PROPERLY CURED,

Y Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth—becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough—but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar—you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated," cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke—free from disagreeable tastes and injurious actions on the inner man.

RUSSIAN FINANCES

DISCUSSED IN GREAT BRITAIN.

Russian Financial Agent charges the British Press with misrepresentation which may cause a panic.

Bulletin Special.

London, March 29.—Mr. Roukowsky, Russian financial agent in London, has sent a letter to London newspapers protesting vigorously against what he calls the deliberate campaign of the past three years, not only by the British press, but also through organs connected with the British press in America and France to damage Russian credit by the prediction of insolvency and repudiation. The letter says that millions of families in Europe have invested the savings of a life-time in Russian securities and will be ruined by the sale of bonds in a panic. It is criminal to attempt to ruin such people by misstatements and misrepresentations and in an individual case any court of law could award damages to the sufferers. Mr. Roukowsky proceeded to deny that Russia's budget is in a chronic state of deficit. On the contrary, he says, the surplus of ordinary income over expenditure for the past ten years aggregated \$900,000,000. Further he says it is not true that the revenues of the railroads do not cover working expenses.

PACKING PLANT

DESTROYED BY WINNIPEG FIRE

Griffin & Co's Factory and Sheds Destroyed this Morning—The Loss will reach \$150,000.

Bulletin Special.

Winnipeg, March 29.—Fire broke out at midnight in the big packing plant of J. V. Griffin and Co., Louise bridge. The entire factory will be destroyed as the establishment is outside the Winnipeg fire limits and without protection. The factory has just been remodelled and the yards extended. The loss will be in the neighborhood of \$150,000.

Brother Shoots Brother.

Bulletin Special.

Glenfalls, N.Y., March 28.—Joseph Farrington, 46 years old, a wood chopper, fired six shots at his brother Elmer this afternoon while the two were at work in a wood lot in the town of Luzern. Four of the shots took effect. It is believed that the wounded man will survive. After the shooting Joseph walked to Glenfalls and gave himself up. The shooting followed a quarrel.

Four Men Blown Up

Bulletin Special.

Albany, N.Y., March 28.—Four men are reported to have been killed in an explosion of three powder mills owned by the Dupont Powder Co. at Schaghticoke near Troy this afternoon. The bodies of the men were blown 300 feet from the wreck and the windows of every house in the vicinity were shattered.

Two Men Suicided.

Bulletin Special.

Cleveland, O., March 29.—Henry L. Woodward, an attorney of New York City, and Charles A. Brause, a traveling salesman for the National Supply Co. of Toledo, committed suicide by shooting in their rooms at Hollende Hotel some time during last night.

No School for Nelson.

Bulletin Special.

Nelson, B.C., March 29.—The bylaw submitted to the trustees of this city by the board of school trustees asking for \$40,000 for erecting a public school building, was turned down by the citizens today, the vote being for the bylaw 100, against 161. To carry the bylaw a majority of three fifths of the votes cast was required.

MARRIED

MYERS-ROGERS.—At the residence of R. J. Manson, brother-in-law of the bride, Edmonton, on Wednesday, March 29th, by Rev. D. G. McQueen, Rev. Chas. A. Myers, M.A. of Field, B.C. to Miss Sophie R. Rogers, youngest daughter of Thos. Rogers of Spadina avenue, Toronto. The happy pair left on To-day's train for their home in Field.

The Evils of Imitation.

Success breeds imitation.

Let a clever designer create a new hat or shoe or coat—and it is copied by every petty maker in the country.

Fit-Reform styles, Fit-Reform garments, Fit-Reform Wardrobes, are imitated. And the imitators' sole claim to popularity is that the imitations are "just as good" as Fit-Reform. NEVER BETTER—only "just as good."

Fit-Reform originates and creates styles—garments—methods.

STURGEON FOOTBALL CLUB.

A meeting of the Sturgeon Valley Foot Ball Club was held in McLean Bros. store on Saturday evening the 25th inst. for the purpose of organizing and electing new officers and discussing other important matters for the ensuing year. Mr. McLaughlin presided as chairman. Mr. J. S. Wray was again unanimously chosen as captain and the undersigned as secretary treasurer, Messrs. Geo. Covey, John McLean and Q. Golder were elected as committee men and Messrs. M. R. Gibbons and Jas. McCue were elected patrons. The red and the blue were the chosen colors of the club. A fine athletic team is organized and is ready to meet any team in Northern Alberta and to deal defeat to them on any suitable grounds. The club will hold practice every Saturday evening at 6 o'clock and all those of the fair sex who enjoy sports and gymnastic feats are cordially invited to attend practices.

JOSEPH McLEAN

Sturgeon Valley, March 27th, 1905.

A HANDSOME DONATION

The Secretary Treasurer of the Edmonton Public Hospital is in receipt of a cheque for \$200.00 donated by the membership of the A.E. & A.M. of the Alberta district. The brethren of the Masonic order have the hearty thanks of the Board for the generous offering toward the fund of the hospital.

NOTICE.

HENRY C. HAMILTON, Solicitor for Applicant, dy 66 tf.

SEWER EXTENSIONS.
Continued from page one

to stop during the afternoon and the standpipe is allowed to become empty during the night.

The commissioners were asked to investigate the cause and arrange matters to have a supply in the stand pipe at all times.

The public works committee was asked to inspect the pump, it was and report as to the pump plant capacity.

JASPER AVENUE SIDEWALK.

The streets and parks committee reported re a permanent sidewalk for Jasper avenue.

1. That a petition be circulated for signature by the ratepayers concerned.

2. That one quarter of the cost be borne by the general taxes.

3. That some practical plan be adopted to better the street for traffic.

LIVERY MEN WANT PROTECTION.

W. S. Weeks, on behalf of the livery men, addressed the council, complaining that the stable keepers had no protection. Many parties were running buses and in other ways trespassing on the rights of the liverymen, and they had no redress. He wanted a bylaw by which a man refusing to pay for a livery rig could be arrested at once. At present a civil action had to be brought against the defaulter. He thought licenses were illegal, but the liverymen were willing to pay the license and have the protection. If this were not granted they would fight the license. He was assured that the matter was in the hands of the bylaw committee and would be dealt with shortly.

The water, light and telephone committee reported recommending increases in the salaries of the telephone central employees. The report was adopted.

COMMISSIONER'S REPORTS.

That a crossing be constructed on Queen's avenue at the south side of Rice street. Adopted.

That certain portions of lots along Jasper avenue extension be sold to Mr. Smith for \$500. Adopted.

THE POWER QUESTION.

Ald. Bellamy wanted to know why the electrician had not yet reported as to the prospective consumption of electric power in the day time. He was informed that the work was not yet completed.

Mr. Hall addressed the council on the benefits of electric power and presented a list of merchants who would use light and power, and urged that the council would advance the power as an inducement to industries.

THE SEWER EXTENSION.

The public works committee reported recommending that the proposed sewer extension for the drainage of the property near the C. N. R. property be built from the river along Sixth and Tenth streets to First street; along McKenzie avenue to Ninth street and south to Jasper. The cost be placed at \$130,000. He suggested also the construction of a sewer along Saskatchewan avenue, from Curry street to Eleventh street. The cost of this would be \$18,000. The report was adopted, subject to the approval of the solicitor, and tenders will be called for the construction.

MR. KINNARD'S SALARY INCREASED.

Ald. Clark moved the increase of Mr. Kinnard's salary to \$2,000. He did so on the ground that the secretary-treasurer should not be held responsible for these additional duties without extra pay. Ald. McLeod seconded.

Ald. Griesbach would support the motion because he thought Mr. Kinnard was the important member of the board of commissioners and because the work was such that he deserved the money.

Ald. Picard said he would oppose the motion on principle.

The motion was carried.

The weekly accounts were passed and the salary of Mr. Crookall confirmed.

Ald. Picard asked for a list of civic employees and salaries to be brought down.

THE R.N.W.M.P. POLICE

REPORT FOR THE PAST YEAR.

Instances of Good Work done by the Force—General Summary of the Work Done.

The annual report of the Northwest Mounted Police was published last week. It is an interesting summary of the year's work of the men who are looking after His Majesty's peace in the Canadian wilderness. It contains reports of men who have been stationed throughout the Northwest, in the Yukon, at the mouth of the Mackenzie river, within the Arctic Circle, and on Hudson's Bay.

From the Territories, Commissioner Perry states that the volume of immigration has added to the responsibilities of the police. New towns and extending settlements have called for police protection and a number of new detachments were consequently established. "The rapid settlement of a new country," he says, "brings a large percentage of bad characters, and statistics show an increase of crime for some years. "The force," he continues, "is doing valuable work among foreign immigrants. The influence is most salutary, and in my opinion is one of the strongest forces tending towards the assimilation of these people. Our constables are constantly called upon for advice, and to settle disputes. The effect of the redcoats upon the newcomers is fully recognized by the officials of the immigration department and by the public generally. The police have gained a reputation at home and abroad as an effective organization which has materially forwarded the progress of the Territories.

"It is today dealing with all classes of men, the lawless element on the border, the cowboys and the Indians on the plains, the coal miners in the mountains, the gold miners in the Yukon, and the whalers and Eskimos on Hudson's Bay, and the Arctic ocean. It is an asset of Canada, and the time has not yet arrived in the development of the country when it can be written off."

The commissioner gives as an instance of the work of the police, the apprehension of an Indian who abandoned to the wolves of the far north two little children. This occurred at Black Lake, 250 miles east of Fort Chipewyan. The Indian was given two years. The arrest was made by Sergt. Field, who travelled with his prisoner 667 miles by boat, 90 miles by trail, and 1,031 miles by train, a total of 1,788 miles.

The Indians are reported to be prosperous and contented. The fur catch in the Athabasca and Mackenzie districts was good and there was no destitution. A check was put on the activity of patent medicine vendors as it was found that the Indians were being supplied with alcoholic compounds to get drunk on. The quarantine cattle branch kept seventeen veterinary surgeons of the force busy. There were 623 miles, 15,646 sheep, 28,932 cattle, and 15,417 horses inspected at ports of entry by five surgeons. For export 70,000 cattle and 4,000 horses were inspected.

The police in the Territories number 39 officers and 450 non-commissioned officers and constables. There are nine divisions with headquarters posts and 98 permanent outposts. More are needed. An addition of a hundred men was authorized by Parliament, but it has been impossible to recruit them, owing to the low rate of pay. Good saddle horses are reported to be getting scarcer and higher in price each year.

C.N.R.'s New Plans.

Winnipeg, March 27.—Details of a big purchase of passenger equipment for the main line of the C. N. R. to Edmonton were announced today by General Manager James, who stated that the company in connection with the new time card for April 26, decided to inaugurate the first sleeping-car service ever operated on C. N. R. lines west of Winnipeg, on the Prince Albert branch.

The announcement marks a radical advance in the transition of the Canadian Northern lines into a transcontinental system. Before the year's end with the new equipment costing over \$1,000,000 the company will be running through trains from Port Arthur to Edmonton, a distance of 1,265 miles, equal approximately to those run on the C. P. R. from Montreal to Rat Portage.

DIED.

Belcher.—At Calgary, on March 27, Isabel Katharine Belcher, infant daughter of Sergt.-Major Belcher.

BORN.

Picard.—At Edmonton on Monday, March 27, to Mr. and Mrs. J. W. Picard a son.

I ALWAYS select the tobacco leaves that grow about the middle of the stalk. I find this leaf as filler in my Pharaoh is best because it is perfectly and uniformly ripened and contains just enough gum to sweat properly and so promote the proper curing. The top leaves of the plant I reject—they are too tender and gummy and contain so much of the rancid bitterness of the tobacco that it would take me five years to sweat them out properly—even then they would not be satisfactory. Then I see that the immature—torn, broken and injured leaves are discarded. The filler of my Pharaoh contains only clear—well cultured—well matured—well cured leaves—the select of each year's Cuban crop.

J. BRUCE PAYNE, Limited, Granby, P.Q.

Held together by the Celluloid wrapper and wrapped in a flaxseed Sumatra wrapper. I import direct from Holland—the best tobacco money can buy—that's why my Pharaoh is so good.—J.B.P.

—Train on time.
 —Regina West:—The Composite Brick company after looking over various places in this vicinity have decided to locate in Regina. Buildings which will be 150 by 30 are already in course of erection on city property north of the C. P. R. The machinery and experts to install the same are already on the road and the company purpose starting the manufacture of pressed brick in less than a month.

—The executive of the S. S. Association for the Edmonton District met last night to arrange for the recognition of building of the gates to the Provincial S. S. Convention to be held here next month. Each S. S. in the city was requested to appoint two members on the reception committee and two on the building committee at their regular session next Sabbath. The guests thus appointed to meet at Alberta College on the following Tuesday evening, April 4, at 7.30 o'clock for the purpose of organization.

—Regina Standard: One little life was snuffed out of existence Friday morning about 11.45 by the chemical engine of the fire department running over a young lad. The name of the boy is Kenneth McDonald, aged nearly 13 years, and who was considered one of the brightest pupils in the school room at the city hall. The father of the dead boy is a tailor by trade, but for some time past has not been following that vocation, he lost one child about a year ago, and another had his legs broken by a train crashing into him.

—Prince Albert Times: The Canadian Northern railway has laid out along the extension of the main line to mile post No. 27. This side of the North Saskatchewan, near the Elbow, is almost completed. There is 305 miles of steel to be laid and two bridges to be constructed before "Edmonton" is reached. The bridges were to be built at Battleford and Fort Saskatchewan. The indications are favorable for the season for construction opening early this spring, and the company is confident of having trains into Edmonton sometime this summer. The tracking can be done rapidly. A very large number of laborers are to be employed this season on the work.

—Regina Leader: From information received by the Leader, which is considered reliable it is learned that the C.P.R. Co. have at the present time a staff of lecturers in the British Isles inducing immigration to the Northwest, and that these lecturers are advising all persons emigrating to go to Calgary or Edmonton. Of course the C. P. R. wants the long haul on the immigration and his effects going in, and on his ultimate farm produce coming out. This is business on their part and they can hardly be blamed. But the Regina Board of Trade should take steps to bring before the incoming British immigration the fact that in no part of Western Canada are there greater opportunities than in the Regina district and on the wheat lands of Eastern Assiniboia.

—Regina Standard: W. Campbell and F. Blanchard, of Fort Frances, passed through the city en route to Prince Albert, where they will be joined by Frederick and Rufus Mosher, and proceed into the Hudson's Bay region to explore for minerals. It is understood that the trip is being undertaken in the interests of a wealthy eastern Canadian. All the members of the party are experienced prospectors and timber men.

—Indian Head, March 25.—A mass meeting of citizens gave permission to the council to establish waterworks, sewerage, and an electric light system at a cost of a hundred and fifty thousand dollars. The capacity of the water system is to be a million gallons daily. A septic system of sewerage is to be adopted.

—Macleod Gazette: Messrs. Jamieson and Dennis of the C.P.R. met the city council on Tuesday morning in conference regarding the railway entering the town. As a result of the meeting arrangements were completed and the entrance of the road into town is an assured fact. The station grounds will be on Fifteenth street and First avenue, a block of land 400 by 1000 feet being given for that purpose. The blocks of land south of Fifteenth street will be reserved for use of the railway should it be required. The town is asked to procure a right of way through the police reserve to the C. & E. junction. The road house will remain where it is for the present. An operator will be left in charge of the station. Through freight will go over the old line but all passenger trains come into town. Macleod will remain a disjunct point.

PERSONAL.

Capt. Strickland came up from the Fort yesterday.

Jno. Copp, formerly of Edmonton, has settled in Moose Jaw.

G. McDonald of Pembina returned last night from a trip to Montana.

Messrs. J. N. Niblock, Superintendent of the Western division of the C.P.R., R. Jamieson, general superintendent, Calgary, and C. H. Smith, came up from Calgary last evening. Mr. Niblock returned south this morning. Messrs. Jamieson and Smith remaining over.

A PROMINENT OLD TIMER

The funeral of the late Philip Tate took place yesterday and was one of the largest seen in Edmonton for many years. A short service was held at the residence in the west end of the city and a service in McDougall church. Interment was made in the Edmonton cemetery. Rev. C. H. Huestis conducted the ceremonies. The bearers were six old Hudson Bay Co. men, Messrs. G. J. Kinard, H. S. Young, Dr. W. M. McKay, Malcolm Groat, John Walters, Geo. Kennedy and W. Gardiner.

The late Philip Tate was born at Point Douglas where Winnipeg now stands in 1827. He was educated at the old school in which St. John's college originated. When sixteen years of age he entered the service of the Hudson Bay Co., his first task being to haul from Stony Mountain the material out of which was constructed the archway which is now all that remains of Fort Garry. He was sent not long after to establish a post for the company on Lake Winnipeg and there are few posts of the company along the Saskatchewan and its tributaries at which he was not subsequently stationed. In 1854 he was sent into the Saskatchewan country with a young officer who afterwards became Senator Hardisty. Mr. Hardisty took charge of the post at Fort Carlton in '54 and for the succeeding 34 years he and Mr. Tate were intimately associated in the company's affairs and became close personal friends. The influence of the two men during the troublous times of the rebellion was of very great service to the country in maintaining peace among the Crees and Blackfeet. In 1859 Mr. Tate built the first house in what has since become the thriving town of Prince Albert. His party ascended the river as far as possible for that season and were forced to spend the winter there. Here his eldest son Albert was born and here for the first time he met another distinguished old timer, Father LaCombe, who was on route from the east and brought news of the death of Prince Consort. This suggested the names for the child and the post which afterwards developed into a village. Deceased acted as guide for the "parties sent through the west by the British Government, under the charge of Lord Milton, Dr. Cheadle, Lord Southwick, Gen. Brisbane and Capt. Sheffield, and left letters of high recommendation from them as to his character and general knowledge of the country, together with diaries embodying the anecdotal of the trip. These will probably be published at an early date by a son of the deceased. Since retiring from the Hudson Bay Co's service some twenty years ago Mr. Tate has lived a retired life in Edmonton where the circle of his acquaintance and friendship has continually widened until it included men of all classes and creeds. A widow and two sons residents of Edmonton and a daughter, Mrs. Alex. Monkman of Grand Prairie, survive him.

STREET LETTER BOXES.

The street letter boxes provided by the Government are being put up today at the following places in the city:
